VLADISLAV BODIN

UX / UI Designer

ABOUT ME

I'm a French UX UI Designer with 5 years of professional experience. I'm interested in all kinds of visual communication, but my major focus is on designing web / mobile interfaces. I also have skills in other fields like branding, icon design or web development.

EDUCATION

SUPINFO International University

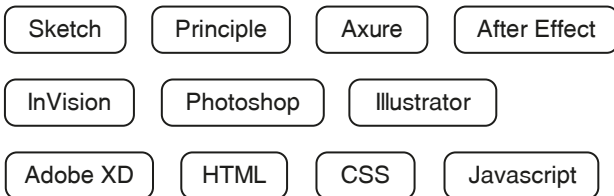

Master degree - Expert in Information Technology
UX specialization

Shaw Academy

Associate level - Advanced graphic design

SKILLS

Design and prototyping

Languages

PROFESSIONAL EXPERIENCE

Ocelo, UX UI designer

I created my own agency and I had the opportunity to work on various projects as a designer but also as a frontend developer.

2016

Some projects :

SAREA, mobile app for connecting customers with service providers.

BATIRECAP, cross-platform application for construction sites.

MonCePrivé.com, frontend developer

I had to create dynamic and easy-to-use web content. I worked closely with back-end developers to help deliver exceptional user experiences.

2016

Kersolan, UX UI designer

Developing flows chart, schematics, wireframes, and sitemaps were my everyday mission. I also had to deliver professional-quality visual assets for in-product use.

2014

ACHIEVEMENTS

StartUp Weekend 2017

Award of «Most valuable product» for POSTAG
